## MARCH REPORT

The month of march has been a very fruitful month for shed a light initiative. Major life transforming events took place which are very significant to us.

### MENTORSHIP

On international women's day, we were able to mentor 17 girls from the community who had just completed their class 8 national exams. This was made possible by the help of Daraja Academy. The form four class interacted with the girls and taught them important life skills on self-awareness, peer pressure and self-control. They also got a chance to learn about high school life and ask any questions they had about this new phase of life which they were just about to get into.

### SCHOLARSHIP

Two of our students under scholarship sat for their form four exams. They were lucky to have been able to use all our resources like our community library which helped them access books, discussion partners and a peaceful place to study. As Shed a Light Initiative we are really hoping for the best and we wish them blessing.

### TUTORING

We have been tutoring students from the community and we get 20-22 students each day who came to use our facilities. This has helped them to improve in their studies and become better students at school. We really believe that they will get even better before they seat for their

national exams for those who will be having their exams at the end of the year.

### **FEEDING PROGRAM**

We launched the feeding program in January and in the month of March we were able to feed an average of about 200 students during the weekends. This has proved to be one of the most effective programs in school as it has attracted so many children. This really shows how much these children really need the food support. The school class attendance has really improved since the children can now concentrate in class.

### **FOOTBALL TOURNAMENT**

Work without play definitely makes Jack a dull boy. With this understanding, we organized a football tournament for the junior team which took place in two days. The team trained with a lot of passion and a lot of commitment that made them emerge number one. They got a ball which is going to be very instrumental in the training. They also got a direct entry to the sub-county. We are big on growing talent.
